InSite Services

Total Waste Management

One Source. More Resources.

InSite Services - Total Waste Management program leverages Clean Harbors' extensive resources and 3rd party vendor management expertise, to customize client sustainability programs and consolidate services through a single point of contact. Total Waste Management programs are focused on **reducing** waste volumes and program costs, **reusing** materials in a beneficial manner to eliminate waste, and **recycling** wastes and byproducts to create value. Our seamless integration into customer sites delivers insight into opportunities for process improvement and cost savings, while ensuring safety and regulatory compliance.

Value-Added Solutions

*Do you need more support to meet your corporate sustainability objectives?
Is too much of your time spent managing waste and compliance, taking you away from your core business operations?*

InSite Services – Total Waste Management programs are custom tailored to a customer’s site-specific environmental needs, managed through a single point of contact, and help our customers to focus on their core business and meet the following goals:

Value Provided	Benefit
Sustainability	Onsite process improvements, utilizing Clean Harbors’ labor and equipment
	Assistance with reducing the amount of waste generated
	Leverage partnerships for the beneficial reuse and/or recycling of waste streams
	Implement sustainability programs (zero waste certification, zero waste to landfill, etc.)
Cost Reduction	Safety and Compliance focused programs
	Vendor Consolidation/Single Source Service Provider
	Reduced Liability/Exposure - Complete indemnification for all waste streams
	Establish or improved returns on recycle/reuse streams and reduce costs on disposal streams
	Documentation and reporting of all Cost Savings/Cost Avoidance achievements
Corporate Governance	Alignment of services via a standardized program approach across a large North American footprint
	Results oriented service quantified through Key Performance indicators
	Real-time visibility into waste inventories/volumes through the Clean Harbors Online Service portal
	Detailed monthly reports, quarterly and annual business reviews
