

Recycling Services

Clean Harbors Ohio recycling facility is centrally located in the Midwest in Hebron, Ohio. It is an Ohio Part B permitted facility that recycles spent industrial solvents. The facility also provides fuel blending and wastewater treatment.

The facility performs solvent distillation on a wide variety of petrochemical and chlorinated solvents, including trichloroethylene (TCE), perchloroethylene (PCE) and methylene chloride. The facility also provides specialized tolling and can handle bulk and containerized waste. Recycled solvents are sold in bulk and in a variety of container sizes.

This facility is equipped with a distillation column, four Safety-Therm dryers, two thin-film evaporators (LUWAs), and three resin bed dryers. There is bulk storage capacity for 482,000 gallons and 136,080 gallons for containers.

Permits

- U.S. EPA ID No. OHD980587364

- Ohio Hazardous Waste Facility Installation and Operation Permit No. 01-45-0518 (Part B)
- Village of Hebron Wastewater Permit No. MIPP 94-18

Facility Description & General Information

Start-up Date: 1981

Facility Size: 12 acres owned

Services Provided:

- Storage and transfer
- Solvent reclamation
- Fuel blending
- Solids bulking
- Wastewater treatment

Typical Waste Streams: chlorinated solvents, aromatic and aliphatic hydrocarbon solvents, and ester solvents.

Typical Customers: pharmaceutical, chemical, dry cleaners, and general manufacturers.

Treatment, Storage and Disposal Capabilities

- Tank Farm Storage: 482,000 gallons (with the ability to increase capacity to 1,230,000 gallons)
- Drum Storage: 136,080 gallons (with the ability to increase capacity to 217,140)
- Accepts bulk and drum waste
